
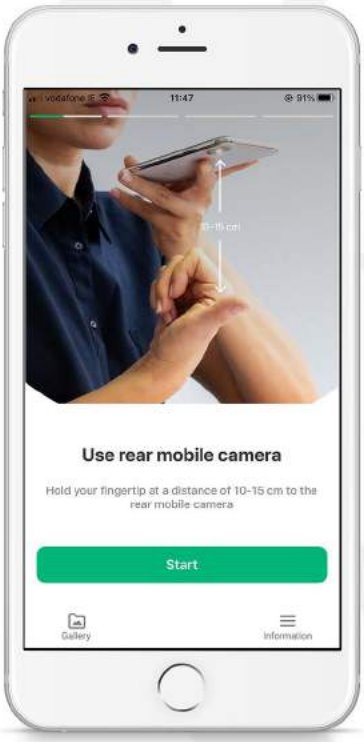
Step 1

Download the “MyFingerprint” App from the App Store or Google play store on your mobile device. You can find the app by searching for “My Fingerprint”

Step 2

Once the app is downloaded. Open the “MyFingerprint” app on your mobile device

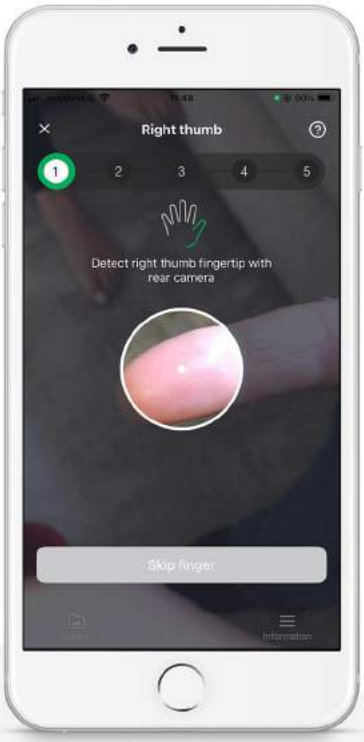


Step 3

Follow the on-screen instructions to setup the “MyFingerprint” app

Step 4

Use the camera on the back of the phone to take a picture of your index fingertip (or preferred fingertip), aligning the two dots in the circle in the middle of the screen

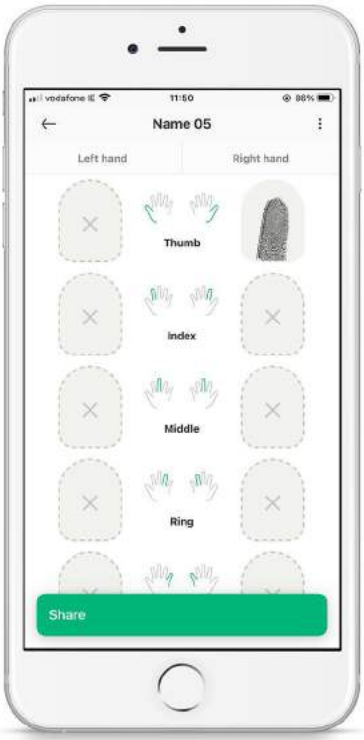


Step 5

If you have scanned the fingertip you would like on your product, you can skip scanning the rest of your fingers, only one fingerprint is required

Step 6

The MyFingerprint app will now process your fingerprint and design your fingerprint icon



Step 7

The app will then show you all the fingerprints they have created. Once created, select the share button at the bottom of the screen

Step 8

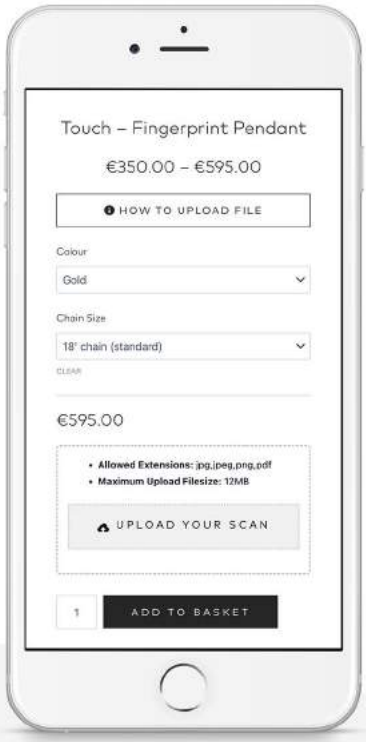
When exporting your fingerprint design, save the file as a .png file type, this is marked on the app as “Original PNG images”

Step 9

The .png file of your fingerprint design will now be exported to your mobile phone. This is the file you will use when ordering your product

Step 10

You can now upload this file to the Soul Engraver website when buying your bespoke Touch product



SOUL ENGRAVER
